VISION FOR HEALTH

A healthy population with a ‘wrap-around’ health, care and well-being service

What is needed:

>> 1. To work with Mayfair, the Stretton Medical Practice and dental surgeries to promote primary health care

>> 2. To support healthy lifestyles such as walking, cycling and good diet in the community

>> 3. To work with schools in establishing good habits for life

>> 4. To campaign for the integration of health and social care

>> 5. To highlight the shortfall in NHS dental provision

>> 6. To champion a National Health Service true to its roots

>> 7. To challenge politicians and councillors over inadequate funding and staffing provision
